Tool and Methodology : GitHub , VsCode , Agile ,Postman

WORK EXPERIENCE

Octanet Services Pvt. Ltd.(Full Stack Developer)   **April ,2024-June ,2024**

• Developed and maintained full-stack web applications using modern frameworks.
• Worked on both frontend and backend development, ensuring seamless integration.
• Enhanced user experience by optimizing UI components and improving API performance**.**

ZIDIO Development(MERN Stack Developer)   **June,2024-July,2024**

• Built and optimized web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
• Developed RESTful APIs and improved database efficiency for better performance.
• Collaborated with the team to enhance functionality and user experience.

PROJECTS

FurniMart *(Ongoing - Freelancer)*
Developed a platform where customers can shop for furniture, place custom orders based on materials like iron, steel, and wood, and even register as manufacturers. Integrated an admin dashboard to monitor manufacturer data, track user behavior, analyze order history, and facilitate seamless communication through a real-time chat feature..

CareerBridge + Certificate Verification System
Designed and developed a comprehensive Job listening portal platform using the MERN stack, integrating a robust certification system. Implemented secure authentication, session management, and domain enrollment features, allowing users to receive verified certificates upon completion.

Django-Based Blog Application
Created a dynamic blog application using Django with SQLite for database management. Enabled seamless content creation, editing, and categorization with a responsive and user-friendly interface using HTML, CSS, and Django templating.

E-Commerce Platform Clone (Myntra)
Developed a stunning clone of the Myntra e-commerce platform using HTML, CSS, and JavaScript. Enhanced user experience with intuitive navigation and visually appealing design, replicating the look and feel of a professional online shopping site.

CERTIFICATIONS & ACHIEVEMENTS

INfOSYS SPRINGBOARD :   Django developer(Python Framework)   **Feb ,2025 – Ongoing**

MONGODB (ICT Academy Learnathon): MongoDB Basics(Database)   **sep,2024 – Oct ,2024**

ZIDIO -DEVELOPMENT : MERN STACK   **Aug,2024 – Oct,2024**

Training & Service   **Feb 2025 - Ongoing**

- Participated in HackVerse2.0 in College (MMDU)

- Participated in the React workshop organized by Google Developer Student Club
